Excellent service and flowers. I called and ordered what flowers I wanted and price point and they had it ready same day within a few hours to pick up! Highly recommend for any special occasion or just because!

Wow..words cannot describe the quality of service I received from Picazo's Flowers. And for such an amazing price! I took one look at their website to see their previous work and I was utterly amazed at the detail they put into every design. The owners work with you diligently on every aspect you want (I'm a picky person!) To say in short, I would highly recommend

Was looking for some flowers today and I found a flower shop Named Picasso in Rancho Cucamonga. They had very fresh flowers The arrangement that I got was very beautiful very reasonable Priced. The best Part about it was the girl that worked there named Briseida Very helpful and very knowledgeable.I asked her if the arrangement would be delivered in the next few hours And she said yes even if I have to close the store and deliver them myself!!! I thought that was great and I really appreciated that so if you're looking for flowers roses arrangements in the Rancho Cucamonga area this is the place to go to!!
